1. Part A: Written Gene Information

- **Gene Name and Full Name** (*HBB—Hemoglobin* subunit beta)
- **Organism** (*Homo sapiens*)
- **Gene ID** (`3043`)
- **Brief Description**: **Biological Function (RefSeq Summary):** E*ncodes the beta subunit of hemoglobin, which combines with alpha chains to transport oxygen in red blood cells.*

2. Part B: The FASTA File

- **File Name:** (`HBB_Homo_sapiens.fasta`).
